

CAREMS – CHART OF ACCOUNTS

(v1.0, Corrected)

Phase One Chart of Accounts for the Construction, Architecture, Consultancy & Equipment Rental business. Complies with IFRS (Ghana's national GAAP) and GRA tax requirements.

Projects (Manet, Tse Addo, Tamale, Katamanso, Airport, etc.) are set up as Projects/Cost Centres – never as GL accounts. Every transaction tags a project reference; the GL stays clean.

Corrections applied to the original draft

1. Removed "GFRS" reference – IFRS is Ghana's national GAAP (see prior correction).
2. Category headers no longer double as account codes (was a primary-key collision in every section) – replaced with a **Reporting Group** column on each leaf account instead.
3. Added **NHIL Payable (2205)** and **GETFund Levy Payable (2206)** – required by the corrected SRS Section 9, previously only VAT existed.
4. Added **Employer SSNIT Contribution** accounts (5005, 6105) – required by the corrected SRS Section 8 payroll posting, which treats employer SSNIT as a real expense.
5. Added **Withholding Tax Credit Receivable (1145)** – tracks tax credits from clients withholding tax on the company's professional fees.
6. Added **Other Payroll Deductions Payable (2135)** – referenced in the corrected payroll posting but previously had no account.

7. Reclassified **Incentives & Bonuses**: moved from "Finance Costs" (7040) to Admin Expenses as **6111 Staff Incentives & Bonuses** – it's a staff cost, not a cost of borrowing.

1000 – ASSETS

Current Assets

Code	Account Name	Type	Reporting Group
1100	Cash on Hand	Asset	Current Assets
1110	Bank Accounts Control	Asset	Current Assets
1111	Ecobank	Asset	Current Assets
1112	Fidelity Bank	Asset	Current Assets
1113	GCB Bank	Asset	Current Assets
1114	Stanbic Bank	Asset	Current Assets
1120	Mobile Money	Asset	Current Assets
1130	Accounts Receivable – Clients	Asset	Current Assets

Code	Account Name	Type	Reporting Group
1140	Retention Receivable	Asset	Current Assets
1145	Withholding Tax Credit Receivable	Asset	Current Assets
1150	Contract Assets / Work in Progress (WIP)	Asset	Current Assets
1160	Advances to Suppliers	Asset	Current Assets

6440	Depreciation Expense	Expense	Admin & Operating

7000 – FINANCE COSTS

Code	Account Name	Type	Reporting Group
7000	Bank Charges	Expense	Finance Costs
7010	Mobile Money Charges	Expense	Finance Costs
7020	Interest on Loans	Expense	Finance Costs
7030	Exchange Losses	Expense	Finance Costs

(7040 "Incentives & Bonuses" removed from this section – reclassified as 6111 above.)

8000 – TAX EXPENSES

Code	Account Name	Type	Reporting Group
8000	Corporate Income Tax Expense	Expense	Tax Expenses
8010	Tax Penalties & Interest	Expense	Tax Expenses
8020	Non-Deductible Expenses	Expense	Tax Expenses

Mapping back to the API Contract

This resolves the open item in Master Plan Section 6 / API Contract Section 6:

Transaction	Posts to (accounts)
Customer Invoice	Dr 1130 (AR) → Cr 4xxx (Revenue), Cr 2200 (VAT Output), Cr 2205 (NHIL), Cr 2206 (GETFund)
Customer Payment	Dr 1110/1120 (Bank/MoMo) → Cr 1130 (AR)
Supplier Invoice	Dr 5xxx/6xxx/1xxx (Expense/Asset) + Dr 2210 (VAT Input) → Cr 2100 (AP)
Supplier Payment	Dr 2100 (AP) → Cr 1110/1120 (Bank/MoMo)
Payroll Run	Dr 5000/6100 (Salary Expense) + Dr 5005/6105 (Employer SSNIT) → Cr 2130 (Salaries Payable), Cr 2230 (PAYE), Cr 2240 (SSNIT), Cr 2135 (Other Deductions)
Salary Payment	Dr 2130 (Salaries Payable) → Cr 1110/1120 (Bank/MoMo)
Asset Purchase	Dr 1200-series (Fixed Asset) → Cr 2100 (AP) / 1110 (Bank)
Monthly Depreciation	Dr Depreciation Expense (new: recommend 6440) → Cr 1290-series (Accum. Depreciation)

One more gap surfaced: there's no explicit **Depreciation Expense** account in the Admin Expenses section — only the contra-asset (Accumulated Depreciation) exists on the balance-sheet side.

Recommend adding **6440 Depreciation Expense** to Section 6000 to complete the postings above.
